

Uzair Ali

FULL-STACK DEVELOPER | AI / ML | CLOUD (AWS) | CYBER SECURITY

+92 333 685 7556 • uzairtandwal@gmail.com • Shakhkot, Punjab, Pakistan [in linkedin.com/in/uzair-ali](#) [github.com/uzairtandwal](#)

PROFESSIONAL SUMMARY

Results-driven **Full-Stack Developer** and BS Information Technology student (6th Semester, CGPA 3.62/4.0) with proven experience across web, mobile, and AI-integrated applications. Built and shipped **4+ complete projects** spanning Flutter, Laravel, Firebase, and OpenCV. Achieved **1st Place** at ICAST-2024 Speed Programming Competition. Actively delivering freelance web & SEO solutions to international clients on Fiverr. Passionate about building intelligent, scalable systems — seeking a role where strong engineering skills meet real-world impact.

PROJECTS

Face Analysis & Voice Changer App

In Development

Python • OpenCV • AI/ML • Flutter • NLP

AI-powered mobile application performing **real-time facial emotion detection** (happy, sad, angry, neutral) using computer vision models with 90%+ accuracy target. Features live camera enhancement and a voice modulation system powered by NLP language models — capable of transforming pitch, speed, and accent in real time.

[View on GitHub](#)

ScentView — Full-Stack E-Commerce Platform

Flutter • Laravel • MySQL • REST API

End-to-end fragrance e-commerce platform with **complete buyer & admin flows**. Features category browsing, guest & registered checkout, SMTP transactional emails, and a full admin dashboard for product/order/banner management. Cloud-hosted on Alwaysdata with **REST API** powering Flutter frontend.

[View on GitHub](#)

Linko — Real-Time Chat & Calling App

Flutter • Firebase • WebRTC • Agora SDK

Production-grade communication app supporting **1-on-1 & group messaging**, HD video/voice calling, and media sharing. Engineered with Firebase Firestore for real-time sync, Firebase Auth for secure login, and Agora SDK for **low-latency <200ms** calling.

[View on GitHub](#)

University Attendance Management System

Laravel • MySQL • Blade • Web

Role-based web platform for Baba Guru Nanak University handling **attendance tracking across multiple departments**. Supports teacher & admin roles, real-time marking, and automated departmental reporting — reducing manual paperwork significantly.
